Emergency departments (EDs) and hospitals receiving funding from CA Bridge for the CalBridge Behavioral Health Navigator Program (Bridge Navigator Program) will submit monthly aggregate data through the data portal by the 15th of each month. Any questions can be directed to data@cabridge.org.

Data Metrics

<table>
<thead>
<tr>
<th>METRIC</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>1. # ED/hospital encounters where a patient was seen by the navigator for any reason.</strong></td>
<td>The total number of encounters where a patient was served by the navigator(s). Include all meaningful patient encounters regardless of visit reason, diagnosis, or location where the patient was seen in the hospital (e.g., ED, inpatient, outpatient, virtual visit, phone encounter). Demographic breakdown of data is required for this metric.</td>
</tr>
<tr>
<td><strong>2. # ED/hospital encounters where a patient was diagnosed with opioid use disorder (OUD).</strong></td>
<td>The total number of encounters in the ED or hospital where a patient received an OUD diagnosis. Suggested ICD-10 codes: F11.1<em>Opioid Abuse, F11.2</em> Opioid Dependence, F11.9*Opioid use</td>
</tr>
<tr>
<td><strong>3. # ED/hospital encounters where a patient was discharged with a follow-up appointment with a substance use disorder (SUD) provider.</strong></td>
<td>The total number of encounters in the ED or hospital where a patient was discharged and accepted a scheduled or drop-in appointment with any SUD provider (e.g., primary care, opioid treatment program, Federally Qualified Health Centers, residential treatment facilities, detox clinic, Bridge clinic, office-based opioid treatment, psychiatric addiction specialist).</td>
</tr>
<tr>
<td><strong>4. # ED/hospital encounters where the navigator facilitates patient referral to follow-up mental health treatment.</strong></td>
<td>The total number of encounters in the ED or hospital where a navigator connected a patient to ongoing treatment via referral to any mental health provider or follow-up mental health treatment (e.g., county mental health, therapist, primary care, crisis stabilization units).</td>
</tr>
<tr>
<td><strong>5. # ED/hospital encounters where a patient was treated with buprenorphine (administered and/or prescribed).</strong></td>
<td>The total number of encounters in the ED or hospital that resulted in the administration or prescription of buprenorphine. This total is not limited to the ED. Demographic breakdown of data is required for this metric.</td>
</tr>
<tr>
<td><strong>6. # ED/hospital encounters where a patient was diagnosed with overdose and seen by the navigator.</strong></td>
<td>The total number of encounters in the ED or hospital where a patient received an overdose diagnosis and was served by the navigator during visit or post-discharge. This includes an overdose from any substance and is not limited to opioid overdose. Suggested ICD-10 codes: T40.0* Opium, T43.6* Psychostimulants, T40.1* Heroin, T40.2* Other Opioids, T40.3* Methadone, T40.4* Other synthetic opioids, T40.5* Cocaine, T40.6* Narcotics, T42.4* Benzodiazepines</td>
</tr>
</tbody>
</table>
Instructions

Who: All Bridge Navigator Program sites and other CA Bridge-affiliated hospitals will submit data.

What: Aggregate monthly data on the total number of patients served (see metrics above) and demographics for Metrics #1 and #5.

When: Data should be submitted by the 15th of each month for the previous month (e.g. April data is due on May 15th). A reminder email will be sent at the beginning of the month to the primary contact for each site. To add a new contact for monthly data reminders, please email data@cabridge.org.

Where: Data portal (https://rebrand.ly/BNP-reporting)

How:
1. Follow the CA Bridge data portal link: https://rebrand.ly/BNP-reporting
2. Enter and confirm your email.
3. Select your hospital name from the drop-down list. Non-affiliated hospitals submitting data can select “Other.”
4. Select the month and year for which you are reporting data.
5. Enter the value for the metric.
   ○ For any data that is unavailable at the time of submission, select the box below the metric field:

   ![Data for metric #2 unavailable]

   **Note:** Sites must submit the unavailable data at a later date. All data is required.

6. Below the initial value, enter the demographic breakdown for race, ethnicity, and sex/gender identity categories.
7. Click “Next” and repeat the process for the following metrics.
8. Click the submit button at the bottom of the form. After you submit the data, the email you provided will receive a confirmation of submission and a copy of the data. The email will also contain a link to the data portal if you need to update or correct data after submission. You can also use this internal worksheet to stay organized and prepare for submissions.
9. To correct or update data (for example, if data was incorrect or unavailable at the time of submission):
   ○ Access the data portal using the link provided in your email confirmation.
   ○ Check, ‘Select if data is being resubmitted (e.g. with a correction or updated data).’

Race, Ethnicity, and Sex/Gender Identity Categories

**Race:**
- American Indian/Alaska Native
- Asian American
- Black/African American
- Native Hawaiian/Pacific Islander
- White
- More than one race
- Other
- Unknown

**Ethnicity:**
- Latinx/Chicanx/Hispanic
- Non-Hispanic or Non-Latinx
- Unknown Ethnicity

**Sex/Gender Identity:**
- Male
- Female
- Transgender, Non-Binary, Gender-Queer, or Other
- Unknown

Race and Ethnicity
Sites must submit race and ethnicity data for metrics #1 and #5. These categories may be reflected differently across hospital Electronic Health Records (EHR). Please follow these U.S. census-defined categories for race and ethnicity to the best of your ability.

Sex/Gender Identity
Sites must submit sex and gender identity data for metrics #1 and #5. For aggregating patient data, sites should report “Male” and “Female” categories as cisgender patients. Non-cisgender identities should be included in “Transgender, Non-Binary, Gender-Queer, or Other.”
